Sold By Cut Length

Backing Paper

FIRE SAFETY

- JIS A-6921 Japan Fire Standard
- BS476 part 6/7 Class 0/1

ENVIRONMENT AND HEALTH

ORIGAMI is an environmentally green product and does not contain any heavy metals such as lead, mercury, cadmium and chromium from inks and adhesive.

HANGING INSTRUCTIONS

Ensure all wall surfaces are clean, smooth, dry and uniformly colored. For gypsum partitions, ply or drywall, fill all cracks and prepare the surface with an acrylic basecoat.

MAINTENANCE

Most wallcovering is easily cleaned using clear, warm water and mild soap with a natural sponge. A soft cloth or towel should be used to tamp dry (do not rub). Stubborn stains can be removed with a laundry spot remover or rubbing alcohol.

Do not use solvent-based cleaning agents, lacquer thinners, nail polish remover, pine oil or cleaning agents containing bleach, which may cause discoloration over time.

BATCHING

Since slight variations in shading may occur from time to time, it is important that the roll carrying the same batch number be used in any one area. Only hang rolls with the same batch number next to each other.
